

Exercise 2: HTML5 Input Attribute

1. Open Notepad and type the following:

```
<!DOCTYPE html>

<head>

</head>

<body>

<h1>Input Attribute</h1>

<form>

Enter password:

<input type="text" name="password" required />

<input type="submit" name submit value="Send"/>

</form>

</body>

</html>
```

2. Inside the type="text" add the following:

- a. placeholder = "id"
- b. pattern= "[0-9]{4}"
- c. title="4 digits"

3. Save the file as inputAttribute.html
