

Exercise 1:

Conditional Statement

Spot the errors in the scripts below.

```
<script>
  var number=20;
  if (num>10)
  document("You can book your tickets.");
</script>
```

```
<script>
var num1=12;
var num2=2;
var max=36;
((num1*num2)<max
{
document.write("num1 x num2 = " (num1*num2) +"<br>");
document.write("The max we can book is:" max
</script>
```
