

# Exercise 2:

## Conditional Statement

1. Open Notepad and type the following :

```
<!DOCTYPE html>
<head >

<script>
var courseNumber=23;

if(courseNumber==10)
{
document.write("Please go to room 14");
}
else if(courseNumber==6)
{
document.write("Please go to room 18");
}
else if(courseNumber==23)
{
document.write("Please go to room 15");
}
else
{
document.write("Check your course number!");
}
</script>

</head>
<body></body>
<html>
```

2. Save the file as conditionalS.html
3. What room number is displayed on the screen?
4. Change the value of the variable courseNumber to 26
5. What message is displayed on the screen ?
6. Save the file
