

Exercise 3:

Conditional Statement

1. Look at the script below and answer the following questions:

a. Write down what result will be shown on the screen.

b. Change the time variable value to 6 then write down what result will be shown on the screen.

c. Change the time variable value to 4 then write down what result will be shown on the screen.

```
<script>
var time=3;
  switch (time)
  {
    case 1: document.write("Dancing at 1pm ");
    break;
    case 2: document.write("Cooking at 2pm ");
    break;
    case 3: document.write("Tennise at 3pm ");
    break;
    case 4: document.write("Keep Fit at 4pm ");
    break;
    default: document.write("No classes at this time")
  }
</script>
```
