

Exercise 2: Event Handlers

1. Open Notepad and type the following script:

```
<!DOCTYPE html>
<head >

<script>
function blurOff()
{
var txt=document.getElementById("box");
txt.style.fontSize="22px";

code for red colour goes here

}
</script>
</head>

<body>

<form name="form1">

<p>First Name:</p>
<input type="text" id="box" onblur code goes here />

</form>

</body>

</html>
```

2. Inside the `<script></script>` write the code for a red font colour

3. Inside the `<input>` tag write the code for the onblur

4. Save the document as blur.html
