

# Answer 3: Window Object

```
<!DOCTYPE html>

<head>

<script>

function text()
{
document.getElementById("h").innerHTML="Font Colour";

document.getElementById("p1").innerHTML="The header font
colour is red";

document.getElementById("p2").innerHTML="This is the 2nd
paragraph";
}

</script>
</head>

<body>

<h2 id="h" style="color:red"></h2>

<p id="p1"></p>

<p id="p2"></p>

<input type="button" value="click me" onclick="text()"/>

</body>

</html>
```
